# Butterflies of Bankhead Moss

S.T. Buckland

I have included just those species I have managed to catch on camera at Bankhead Moss.

# Contents

Small white	4
Green-veined white	5
Small copper	6
Red admiral	7
Small tortoiseshell	8
Peacock	9
Comma	10
Ringlet	11

## Small white

Common especially in farmland, but usually less common than the green-veined white.

## Green-veined white

A very common species.

## Small copper

Fairly widely distributed in Fife. This one was at Bankhead Moss in September.

## Red admiral

A common species especially in late summer.

## Small tortoiseshell

A common and familiar species.

## Peacock

The peacock has spread north in recent years and is now one of the most common butterflies in Fife.

## Comma

A distinctive species that has spread northwards into Fife. This one was at Bankhead Moss in late September 2018.

## Ringlet

Common in grassland.
